11.3 cubic feet deep

CIC Powerbox Aluminum Crossovers provide superior security for tools and equipment. The combination of our Gear-Lock Dual Rotary Locking System, RSL Rigid Structural Lid, and our high-strength body will resist over 1,000 lb. of prying for to break in.

Features:

Gear-Lock self-adjusting dual rotary locking system always latches and closes for superior security. Self-aligning latch pin pivots from side-to-side to engage with the Gear-Lock System; no adjustments required

3-Layer Laminated RSL Rigid Structural Lid has a reverse beveled edge liner and an inner layer of rigid foam insulation to create the most rigid, strongest aluminum lid we've tested
Reinforced high-strength body and full-wide lock console resists cargo damage and protects the lock system

End-mounted push buttons provide easy access; lid locks and unlocks from either side for security and safety

Heavy-duty guards protect the vertical-action gas spring lid lifts and help ensure long-term durability
Built-in storage bin on both ends and 4-compartment sliding tray for convenient hand tool and small item storage
